📍 Luxembourg

## EXPERIENCE

### Data Scientist

#### Decathlon Belgium

📅 06/2019 - current 📍 Evre, Belgium

- Developed a turnover prediction model to help stores plan the right resources at the right time
- Coded a recommendation model to plan the best references to showcase during the corona crisis
- Set up a dashboarding platform with more than 10 dashboards to democratize data access within the company
- Extracted tables and created summary statistics for data understanding and visualization
- Automated reporting and emailing to save my colleagues a lot of time

### Department Manager

#### Decathlon Belgium

📅 06/2019 - 07/2019 📍 Arlon, Belgium

- Direct a €6 million department composed of over 15 vendors
- Introduced new inventory management processes within department to improve turnover by 10%

### Assistant Sustainability Practice

#### IMS Luxembourg

📅 10/2017 - 04/2018 📍 Luxembourg

- Research and writing assistance for the magazine 'Sustainability MAG'
- Helped to organize the Luxembourg Sustainability Forum 2017 (>350 participants)
- Write the first publication that measures the contribution of Luxembourg companies to the Sustainable Development Goals
- Co-organized a workshop in the context of the Food pillar of the 'Third Industrial Revolution'

### Credit Risk Data Analyst Intern

#### Banque Internationale

📅 01/2017 - 06/2017 📍 Luxembourg, LU

- Validated and ensured consistency of the credit risk data base through a VBA application
- Data extraction to review risk exposure calculations and forecasts for Basel requirements

## EDUCATION

### Master's Degree in Business Administration, Finance

#### University of Namur

📅 2015 - 2018 📍 Belgium

- Thesis: Towards Green Companies - A Panel Data Study of The Environmental and Financial Performance Nexus
- 6-months Erasmus at FEA USP - Sao Paulo in Brazil

### Bachelor's Degree in Business Administration

#### University of Namur
